

## Advisory Services

---

*We support companies, institutions, and public stakeholders with **strategic and operational advisory** in the field of energy transition skills.*

Our advisory services focus on:

- Identifying **skills gaps** and workforce readiness
- Designing **training strategies aligned with business and industrial goals**
- Supporting **large-scale upskilling initiatives** at company or territory level
- Contributing to **public programmes and consortium projects**

We act as a **bridge between industry needs and talent development**, ensuring that investments in technology are matched by the right capabilities.
